ipecial Operating Conditions

The Caption, Menu. Reset, Sleep, and V-Guide keys will operate only Sanyo televisions.

The *Channel* ∇/Δ keys perform the *Tracking* –/+ functions on **Sanyo** and **Fisher** brand VCRs.

The Display and Mute keys operate the TV regardless of the mode selected.

The *Vol* =/+ keys operate TV functions in the VCR, TV, and Cable modes.

The Recall and Video keys have no function in the Cable mode.

The *Enter* key is for Satellite operation only.

The Vol—/+ keys and $Channel \bigvee / \triangle$ keys move the Cursor in the SAT/AUX mode when this mode is programmed to operate a satellite receiver.

The *Menu* key functions as the *Guide* key in the SAT/AUX mode when this mode is programmed to operate a satellite receiver.

Refer to the owner's manuals that came with your equipment for specific features operation.

To THE OWNER

Welcome to the World of Sanyo

Thank you for purchasing the Sanyo "Starlight" Universal Remote Control. You made an excellent choice for Performance, Reliability, Value, and Styling.

The **RMT-U200** can replace four separate remote controls. This greatly simplifies the operation of your home entertainment system. This remote control can operate *Video Cassette Recorders*, *Televisions*, *Cable Converter Boxes*, and *Satellite Receivers*. Simply program it according to the directions in this owner's manual. Then press the proper function key (*VCR*, *TV*, *CABLE*, or *SAT/AUX*) to set the remote control to operate each product. The SAT/AUX mode can be programmed to operate a Satellite Receiver or another VCR, Television, or Cable Box.

The RMT-U200 remote control is ergonomically friendly. It offers large Channel, Volume, Power, and Light keys that glow-in-the-dark. It has Function keys that light and a keypad that lights when the Light key or other related key is pressed. The keypad remains lit for a few seconds after releasing the Light key. This allows easy use in a dimly lighted room.

Because the associated mode key lights when you press any operating key (channel, volume, number etc.), you always know which component is being controlled. Just observe the mode keys. The one that lights is the answer.

The **RMT-U200** universal remote control comes with keys that are preset to operate your Video Cassette Recorder, regardless of the mode you have selected.

The Caption, V-Guide, and Rec keys have reduced heights to lessen accidental activation.

BEFORE YOU BEGIN

Install The Batteries

Step 1. Remove the battery cover by pressing the tab and ltilting the cover upward.

Step 2. Install two "AA" batteries as shown. Be sure to match the • / • signs on the batteries with the • / • marks inside the case.

Note: **Do Not** mix new and used batteries or mix different types of batteries together.

IMPORTANT NOTE: SPENT OR DISCHARGED BATTERIES MUST BE RECYCLED OR DISPOSED OF PROPERLY IN COMPLIANCE WITH ALL APPLICABLE LAWS. FOR DETAILED INFORMATION, CONTACTYOUR LOCAL COUNTY SOLID WASTE AUTHORITY.

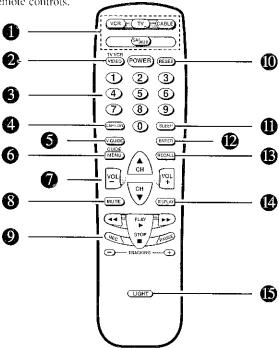

OPERATING KEYS DESCRIPTIONS

- **Mode** Keys—Use these keys to program the remote control and to select the operating mode (VCR, TV, Cable or Satellite/Auxiliary).
- **2** Video/TV•VCR Key—In the TV and Satellite modes, this key selects the program source to display on the screen (TV signal or signal from equipment connected to the A/V jacks). In the VCR mode, this key functions as a VCR's TV/VCR key. This key has no function in the Cable mode.
- 3 Number Keys—Use these keys to directly select channels on your VCR, TV, Cable Converter Box, or Satellite Receiver.
- Caption Key—Press to select the caption mode: OFF, Caption1, Caption2, Text1, Text2 or Quikcap on a Sanyo TV.
- **S** V-Guide Key—Press this key to access the TV Parental Guidelines setup menu on a Sanyo TV. It has no function in other modes.
- **6** Menu/Guide Key—Use this key along with the △/♥ and ⑤/♠ keys to adjust the features of a Sanyo TV. Use it to display the Satellite Guide in the SAT/AUX mode.
- The Channel (♠/♥) and Volume (♠/♠) Keys—In the VCR, TV, and Cable Box modes, press to scan through the channels or to adjust the volume. In the SAT/AUX mode, these keys move the cursor.
- 8 Mute Key—Press once to turn off the volume. Press again to restore the volume.
- **9** *VCR* Keys—These keys control the VCR's Fast Forward (FF), Rewind (REW), Play, Record, Stop, Tracking, and Pause functions.
- Reset Key—Press this key twice to restore factory settings on a Sanyo TV. It has no function in other modes.
- Sleep Key—Use this key and the 0 (zero) key to set the Sleep Timer on a Sanyo TV. Press Sleep then 0 to set the amount of time delay. The TV will shut down automatically.
- Enter Key-Satellite operation only.
- Recall Key—Press to switch between two channels. This key has no function in the Cable mode.
- 14 Display Key—Press to display the TV channel number on the screen.
- Light Key—Press to backlight the keypad. Keys will remain lit for a few seconds after releasing the key.

OPERATING KEYS LOCATIONS

The keys on this remote control operate functions similar to those of your

original remote controls.

PROGRAMMING THE REMOTE CONTROL

1. Find your equipment's brand codes in the charts on pages 5, 6, and 7.

Note: Larger code numbers may represent more recent models. Therefore, if you have late model equipment, we recommend that you try the largest number first.

2. Press and hold the VCR. TV. CABLE, or SAT/AUX mode key while entering the three-digit code number. The Mode key will flash 5 times if the code was accepted. The VCR, TV and CABLE modes will accept only each mode's specific code type. If you enter an invalid code, the Mode key will light, but it will not flash, repeat Step 2. The SAT/AUX mode will accept all code types.

3. Perform Step 2 for each piece of equipment you have (VCR, TV, Cable Converter Box, and/or Satellite Receiver). After entering a code number check the Power and Channel operation. If these functions operate properly, programming is complete. If not, try reprogramming using another code, if available.

After programming is confirmed, enter your codes in the spaces provided below and on the back of the remote control.

Operating Tips and Troubleshooting Hints

- The VCR and TV modes are preprogrammed with Sanyo codes.
- To operate each product (VCR, TV, Cable Box, or Satellite Receiver), you
 must first press the proper mode key (VCR, TV, CABLE, or SAT/AUX).
- The SAT/AUX mode can be programmed to operate a Satellite Receiver or another VCR, TV. or Cable Box.
- Some manufacturers use different types of remote controls. If your brand
 has several codes listed, program the unit with different codes until you find
 the correct one. Larger numbers may represent newer models.
- There may be VCRs. TVs, Cable Converter Boxes, and Satellite Receivers that this remote control cannot operate. Some models may operate only partially.
- Code numbers will remain in memory for five minutes as you replace batteries.
- Remove batteries from the remote control if it will not be used for a month or more. Weak batteries may leak, causing damage to the remote control.
- This remote control uses an invisible (infrared) light beam to operate the equipment. Objects between the equipment and the remote control can block this light beam. Therefore, the remote control must be pointed directly at the equipment you want to operate.
- This remote control cannot add features to your equipment. They must have been originally provided by your equipment's manufacturer.
- If the remote control fails to operate any of your equipment replace the batteries. Be sure batteries are installed correctly.
